

This And That

Music and Lyrics by Carole and Ron Ciancioso

VERSE 1

Sometimes we speak so loudly
Some straight from the heart
Some are cast to speak so proudly
Others never got a part
A part of this n that
That n this
This n that
That n this

VERSE 2

Now our beliefs divide us all
Its often day and night
But too extremes on all sides
Don't make it wrong or right
Im tired of the this and that
That n this
This and that that and this
Reciting ---rap
Now you can say whats on your mind
Because you like to chat
But lets be clear hey im not here
To listen to this and that
Well some of you like to follow
And tell us what you like
Your twisted conversations designed to make you think you'e right
Show us how loud you can shout
Let it all out

VERSE 3

And so im here to tell you
To rise above it all
We don't need no more divisions
We don't need another wall
So less of this and that
That and this this and that
This n that
That n this
This n that
That n this
